

Job Description: Maintenance Technician - Aircraft Electrician & Avionics – Mesa, Arizona USA

Minimum Requirements:

- FAA A&P Certificate
- Minimum 5 years of experience with aircraft electrical system maintenance and/or avionics repair

Preferred (not required):

- Experience maintaining electrical systems on Lockheed C-130, L382, L100, L188, or P-3 aircraft
- Experience maintaining electrical systems on heavy aircraft
- Ability to thoroughly troubleshoot electrical system malfunctions and bench check system components
- Experience upgrading aircraft avionics including submission of required FAA field approval / aircraft modification documentation

Job Description:

Applicant should possess the ability to work as part of a 25 to 50-person maintenance department located at a major airport. Position requires primary duties as a technician for Lockheed C-130 aircraft specializing in the troubleshooting, repair, inspection, and modification of aircraft electrical and avionics systems and associated components.
