

Job Description: Maintenance Technician - Aircraft Turboprop Powerplant – Mesa, Arizona USA

Minimum Requirements:

- FAA A&P Certificate
- Minimum 5 years of experience with jet and turbo-propeller powerplant maintenance

Preferred (not required):

- Experience maintaining Rolls-Royce T56/501 engine
- Experience maintaining Hamilton Sundstrand 54H60-91 propeller
- Experience maintaining Lockheed C-130, L382, L100, L188, or P-3 aircraft

Job Description:

Applicant should possess the ability to work as part of a 25 to 50-person maintenance department located at a major airport. Position requires primary duties as a technician for Lockheed C-130 aircraft specializing in the troubleshooting, repair, inspection, and overhaul of T56-A-9D engine, 54H60 propeller, and associated components.
